

HOME HEALTH & HOSPICE

When one of the largest national home health and hospice coding company in the US was seeing a significant rise in demand for their services, they decided to look for an outsourcing vendor to partner in their growth. This company works with multiple coding platforms such as McKesson, DeVero, All Scripts, Cerner, Home Care Home Base & Epic and offers different levels of services. They were looking for a strength of over a 100 home health certified coders within a span of 6 months. In their pursuit for a partner, they found 3Gen Consulting, which acted as a one-stop solution for them and made a significant difference.

OUTCOMES

- Seamless increase in the number of certified coders within a given period of time
- In-house training & audit team ensured coders reached full productivity within 90 days
- Generated Cost Savings up to 50% in 1 year
- Increased overall production by 150% in 2 years
- Platform agnostic coders with the ability to code for Level I, II & III services
- Significant improvement in STAR ratings for agencies due to accurate coding and OASIS
